About ChilliQ

connecting leaders + ideas

We are a leading creator of conferences and summits who aim to bring together great minds with avid learners amongst the thought-inspiring atmosphere of leading venues.

Chilli IQ has many years of collective experience in the area of creating and developing innovative conferences and summits for the changing business environment. This is not though what differentiates us from the crowd, what makes us unique is our modus operandi. We value quality and strive to ensure that every aspect of our events reflects this – from the choice of speakers, the venue and the genuine attention to detail.

Our main objective is to lead the field in the area of knowledge delivery and as this is a fluid process we are constantly seeking new avenues and evolving to make sure we never just settle. We ensure that all who partake in the Chilli IQ conference experience – whether it be as a delegate, a speaker, a sponsor or an endorsing association – maximise their investment and attain a higher level of understanding and awareness of the chosen business theme.

Lawtech Origins

It was way back in 2006 when Chilli IQ first developed the Lawtech Summit as we saw the need for a platform for the evolving legal technology market in Australia. It was new, fresh and created a buzz amongst the growing legal technology crowd but furthermore it created a community. It brought together legal IT Managers and everyone involved with the technology of a law firm in one place – for the first time in Australia.

Fast forward to now and the legal technology community has grown and thrived. Through the last 16 years the Lawtech Summit has seen the evolution of legal technology managers go from just the IT guys to becoming an important and essential part of the business strategy of law firms today.

Due to the importance of the legal technology market globally we have broadened to other countries like NZ, Asia and the Middle East, bringing the same quality and knowledge of the market across the globe.

We are proud to be an integral part of this ever evolving community and continue to offer a stage for thought leaders and ground breakers of the legal technology field.

Advisory Panel

In order to best represent the interests and needs of the legal technology profession, we have assembled some of the most prominent legal leaders and thinkers to form the **2025 Advisory Panel** that assists with the direction and planning of topics for the 3 Lawtech Forum NZ.

Our esteemed panelists include:

2025 ADVISORY PANEL

Natasha Wilson
Head of IT
DLA Piper New Zealand

Adam Gower
Chief Digital Technology
Officer
Buddle Findlay

Jon Calder
Chief Executive Officer
Tomkins Wake

ABOUT THE EVENT : THEME

INNOVATE . DISRUPT. EVOLVE. The Future of Law in a Digital Age

“
Embracing the
Digital Dawn:
How
Technology is
Revolutionising
the Legal
Industry”

The Lawtech Summit is the trailblazer event for legal technology in Australia and NZ, delivering innovative conferences since 2006.

The legal industry is on the cusp of a revolution, driven by the rapid advancement of technology. As we navigate this new landscape, it's clear that technology is not only changing the way we practice law, but also transforming the very fabric of the industry.

From AI-powered contract review to virtual courts, blockchain-based smart contracts to cybersecurity threats, the opportunities and challenges presented by technology are unprecedented.

The conference will explore the intersection of technology and law, as we delve into the ways in which technology is driving change in the legal industry. Through keynote presentations, panel discussions, and interactive sessions, we'll examine the latest trends, innovations, and advancements in legal technology.

The Lawtech Forum NZ will be addressing important issues and shedding some light for a clearer technological future.

WHAT YOU WILL LEARN

The 2025 Lawtech NZ programme will focus on:

The Practical Application of Artificial Intelligence in Aotearoa's Legal Sector -

Discovering AI's role in enhancing legal research, predicting case outcomes, automating processes, and more.

Digital Transformation in Law: Adapting to Change in Aotearoa's Legal Landscape -

Examining the impact of digital transformation on law firms and in-house legal teams, and how to navigate this change.

Data Governance: Optimising Your Data for AI Enablement - Unlocking the potential of data to drive AI innovation, while ensuring responsible management and protection of sensitive information.

Ethics in an AI-Driven World - Exploring the ethical considerations and implications of AI adoption in Aotearoa, and how to ensure a responsible and beneficial integration of AI in our society.

The Future of Access to Justice: Strategies for Improving Equity and Inclusion in Aotearoa's Justice System - Discussing innovative approaches to increase access to justice for marginalized communities and promote a more equitable justice system.

Cybersecurity in the Legal Sector: Protecting Sensitive Information in a Digital Age - Examining the latest cybersecurity threats and best practices for law firms and in-house legal teams to protect sensitive client information.

Wellbeing and Burnout in the Legal Profession: Strategies for Managing Stress and Maintaining Resilience - Exploring the importance of wellbeing and mental health in the legal profession, and discussing practical strategies for managing stress and maintaining resilience.

Change Management – how we prepare our firms for change, how we get the pace of change right and build resilience in our people so that they are able to cope and manage.

Leveraging the tools you have now and integrations between tools – the concept of the integrated Tech Stack
