LAWTECH ORIGINS

Australia's leading Legal Technology event since 2006

It was way back in 2006 when Chilli IQ first developed the Lawtech Summit as we saw the need for a platform for the evolving legal technology market in Australia. It was new, fresh and created a buzz amongst the growing legal technology crowd but furthermore it created a community. It brought together legal IT Managers and everyone involved with the technology of a law firm in one place – for the first time in Australia.

Fast forward to now and the legal technology community has grown and thrived.

Through the last 19 years the Lawtech Summit has seen the evolution of legal technology managers go from just the IT guys to becoming an important and essential part of the business strategy of law firms today.

We are proud to be an integral part of this ever evolving community and continue to offer a stage for thought leaders and ground breakers of the legal technology field.
