ABOUT CHILLI IQ

connecting leaders + ideas

We are a leading creator of conferences and summits who aim to bring together great minds with avid learners amongst the thought-inspiring atmosphere of leading venues.

Chilli IQ has many years of collective experience in the area of creating and developing innovative conferences and summits for the changing business environment. This is not though what differentiates us from the crowd, what makes us unique is our modus operandi. We value quality and strive to ensure that every aspect of our events reflects this – from the choice of speakers, the venue and the genuine attention to detail.

Our main objective is to lead the field in the area of knowledge delivery and as this is a fluid process we are constantly seeking new avenues and evolving to make sure we never just settle. We ensure that all who partake in the Chilli IQ conference experience – whether it be as a delegate, a speaker, a sponsor or an endorsing association – maximise their investment and attain a higher level of understanding and awareness of the chosen business theme.

"The Chilli IQ AI seminar was an absolute game-changer, specifically focusing on AI applications in the legal industry. With expert speakers exploring the potential, risks, and regulatory aspects, it offered an unparalleled deep-dive into the future of law.

The event's superb organisation, excellent venue, and large turnout made it a must-attend.

Eagerly awaiting the next year's insights!"

ABOUT THE LAWTECH SERIES

LAWTECH ORIGINS

It was way back in 2006 when Chilli IQ first developed the Lawtech Summit as we saw the need for a platform for the evolving legal technology market in Australia. It was new, fresh and created a buzz amongst the growing legal technology crowd but furthermore it created a community. It brought together legal IT Managers and everyone involved with the technology of a law firm in one place – for the first time in Australia.

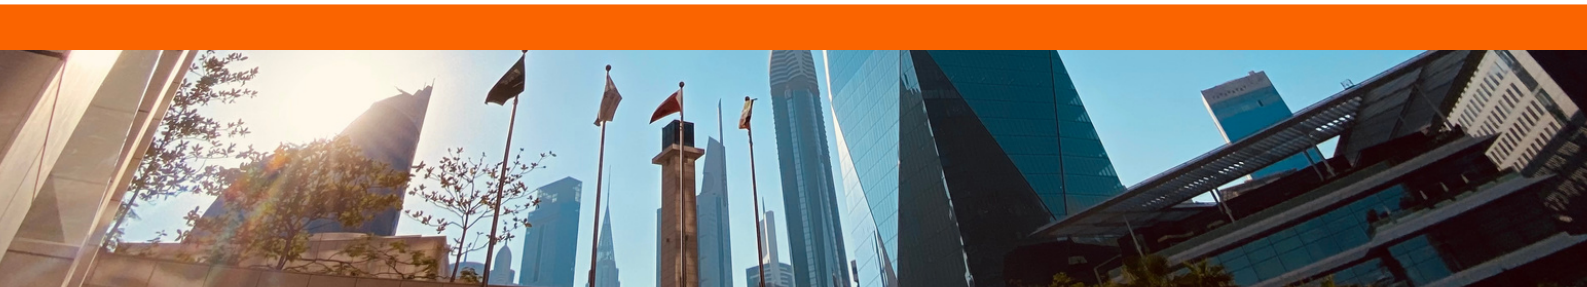

Fast forward to now and the legal technology community has grown and thrived.

Through the last 17 years the Lawtech Summit has seen the evolution of legal technology managers go from just the IT guys to becoming an important and essential part of the business strategy of law firms today.

We are proud to be an integral part of this ever evolving community and continue to offer a stage for thought leaders and ground breakers of the legal technology field.

As legal technology has grown so has its importance and significance across the globe - this is why we now run The Lawtech Summit in AUSTRALIA - NEW ZEALAND - ASIA - MIDDLE EAST.

LAST YEAR WAS THE INAUGURAL LAWTECH MIDDLE EAST AND DUE TO ITS GREAT SUCCESS WE ARE NOW RUNNING THE 2 LAWTECH MIDDLE EAST FORUM.

ABOUT THE ADVISORY PANEL

In order to best represent the interests and needs of the legal profession, we have assembled some of the most prominent legal leaders and thinkers to form the **2024 Advisory Panel** that assists with the direction and planning of topics. Our invited esteemed panelists include:

ABOUT THE EVENT

THEME: LAWTECH IN THE AI ERA: CHALLENGES AND OPPORTUNITIES FOR LEGAL INNOVATION

Artificial Intelligence without doubt will have a transformative impact on the legal sector. There is a huge urgency for law firms to evolve in the face of digital transformation, advanced training, heightened cybersecurity, and evolving client expectations.

The 2 Lawtech Middle East Forum will be a platform for discussing these challenges and addressing the topics with leading experts in the field. It will include only the present and future evolution of AI but also the regulatory, security and ethical issues that firms will face with this new technology.

“

Innovation is the ability
to see change as an
opportunity – not a threat

SESSION 1:

10:15 - 11:15

OPENING KEYNOTE PRESENTATION

THE NEW SPACE AGE: NASA, SPACEX, AND THE FUTURE OF AUTONOMOUS CRAFT - PERSPECTIVES FROM A FUTURIST

There is a universal uncertainty in the approach to change in leveraging AI and Augmented/Virtual Reality into the workplace. NASA itself is having to overcome a change bias built into their culture from the 1990s, in that the tech they have used for decades works and is relatively bullet proof in withstanding the realities of radiation in space for long periods of time.

NASA is having to upend an approach from tried and true supervised learning craft relying on windows of communication with scientists back on Earth, to unsupervised learning craft built with AI driven AI-algorithmic programming on board to make decisions on it's own. In this session, we explore this culture shift, and how it is a model that can be applied to professional services and the legal industry across the globe as AI integration becomes a reality, and we evolve towards the augmented and virtual reality workplaces of the future.

ERIC HUNTER | GLOBAL FUTURIST, HEAD OF INNOVATION FUTURES, CHIEF TECHNOLOGY INNOVATION OFFICER

BBINNOVATION FUTURES
