Our main objective is to lead the field in the area of knowledge delivery and as this is a fluid process we are constantly seeking new avenues and evolving to make sure we never just settle. We ensure that all who partake in the Chilli IQ conference experience – whether it be as a delegate, a speaker, a sponsor or an endorsing association – maximise their investment and attain a higher level of understanding and awareness of the chosen business theme.

# LAWTECH ORIGINS

It was way back in 2006 when Chilli IQ first developed the Lawtech Summit as we saw the need for a platform for the evolving legal technology market in Australia. It was new, fresh and created a buzz amongst the growing legal technology crowd but furthermore it created a community. It brought together legal IT Managers and everyone involved with the technology of a law firm in one place – for the first time in Australia.

Fast forward to now and the legal technology community has grown and thrived. Through the last 16 years the Lawtech Summit has seen the evolution of legal technology managers go from just the IT guys to becoming an important and essential part of the business strategy of law firms today.

**Due to the importance of the legal technology market globally we have broadened to other countries like NZ, Asia and the Middle East, bringing the same quality and knowledge of the market across the globe.**

We are proud to be an integral part of this ever evolving community and continue to offer a stage for thought leaders and ground breakers of the legal technology field.

## THE FUTURE IS HERE: HOW AI TECHNOLOGY IS RESHAPING THE LEGAL LANDSCAPE
