About Chilli IQ

connecting leaders + ideas

We are a prominent organiser of conferences and summits dedicated to uniting brilliant minds with enthusiastic learners in inspiring venues.

Chilli IQ boasts many years of collective experience in designing and developing innovative conferences and summits tailored for the evolving business landscape. However, it's not just our experience that sets us apart; it's our approach. We prioritize quality and ensure that every component of our events reflects this commitment; be it the selection of speakers, the venue, or our meticulous attention to detail.

Our primary goal is to lead the knowledge delivery sector, and as this is an ever-changing process, we continuously explore new paths and adapt to ensure we never become complacent. We strive to guarantee that everyone involved in the Chilli IQ conference experience whether they are delegates, speakers, sponsors, or endorsing associations, maximises their investment and gains a deeper understanding of the selected business theme.

The **Managing Partners Forum** has reached its **twentieth year** and has positioned itself as the premier event for legal leaders in strategy, leadership, and technology across the Asia-Pacific region.

It is Chilli IQ's unwavering commitment in over two decades of excellence in producing events for law firm leaders and partners that establishes the legal industry's trust in the quality of each event we create.

With guidance from our knowledgeable advisory panel, we carefully select speakers and topics that enhance the role of legal leaders and equip them for improved future planning.

ADVISORY PANEL

about the event

Empowering legal leadership through two decades of strategic dialogue & shared insights

Chilli IQ founded the Managing Partners Forum way back in the 2008 and it now marks its 20th anniversary! The Forum is a milestone for the Australian legal profession, it was the first of its kind in Australia, bringing together legal leaders to draw frm the insights of industry leaders and put their ideas to the test and build the networks that have made it a community of real importance.

Over those two decades, the decisions facing these leaders have been reshaped by the swift technological shift of the law firm and the rapid introduction of AI, changing how firms are run, how clients are served, and how talent is developed and retained. Yet even as technology accelerates, the need for genuine human connection remains just as essential.
The conversations, connections, and trust developed among managing partners enable them to make sound judgments amid shifting conditions, and this lasting benefit is the enduring value the Forum has championed since its beginning.

The Managing Partners Forum brings together managing partners and industry innovators to map and understand what is over the horizon. It is a unique opportunity to gain personal, practical insights as a managing partner and join peers to exchange experiences that set the course for 2027 and beyond
